

BRANDING PORTFOLIO

SpiritualRetreats.network

The New Brand Direction

Earth meets Heaven: a grounded retreat platform with a sacred, premium soul.

Brand idea

A bridge between nature and spirit: the deep celestial blue holds the sacred lotus, the forest greens keep the platform rooted in real retreats, and gold carries the feeling of transformation, trust, and light.

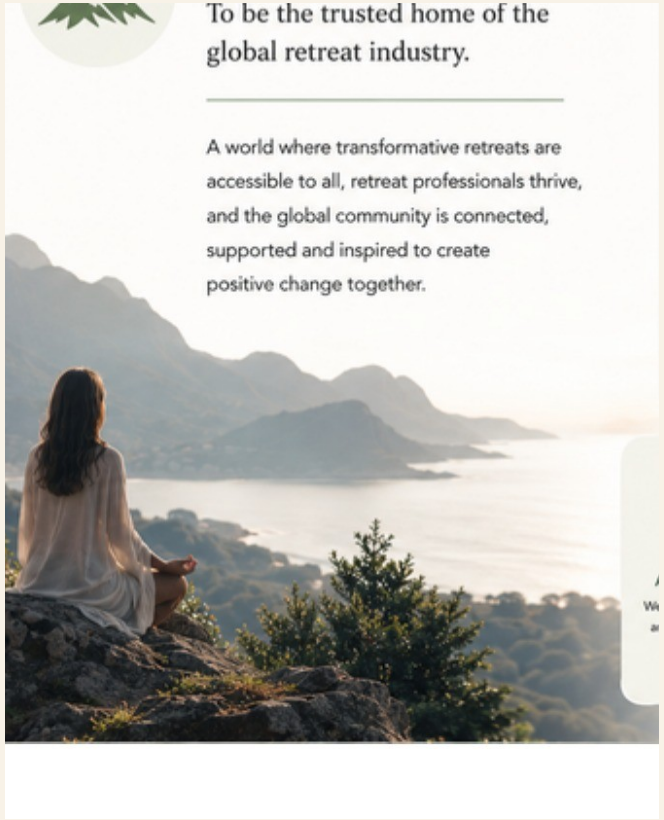

Naming note

Use SpiritualRetreats.network for the domain and platform. The elegant logo lockup can hold the display name Spiritual Retreat Network as the public-facing master mark.

Brand Essence

A clear emotional core for every page, deck, profile, message, and retreat experience.

Purpose

To become the trusted home where seekers, retreat leaders, facilitators, and venues can find each other, grow together, and create genuinely transformational retreat experiences.

Promise

SpiritualRetreats.network brings beauty, clarity, support, and connection to an industry that is often fragmented, manual, and difficult to navigate.

Positioning line

The global connection hub for spiritual retreats - where seekers find the right retreat and retreat professionals find the right people, tools, visibility, and support.

Brand mantra

Grounded in nature. Guided by spirit. Built for trust.

Core feeling: calm, premium, human, spiritual, professional, and quietly powerful.

Logo System

The lotus is the sacred master symbol. The geometry gives it structure, mystery, and authority.

Master lockup

Use on navy or deep image backgrounds.

Sacred mark

Use for favicon, social avatar, stamps, seals.

Typography

Elegant, readable, and premium - spiritual without becoming decorative or hard to read.

Display Serif

Cormorant Garamond / Georgia

Use for the brand name, large headings, sacred statements, and premium editorial moments.

Body Sans

Inter / Aptos

Use for body copy, explanations, navigation, forms, profile content, and practical platform instructions.

Hierarchy example

The Home of the Global Spiritual Retreat Industry

One platform. Four pillars. Unlimited possibilities.

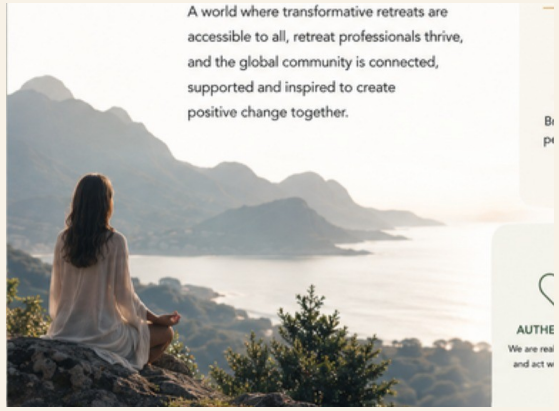

Connecting seekers, leaders, facilitators and venues to grow the retreat community together.

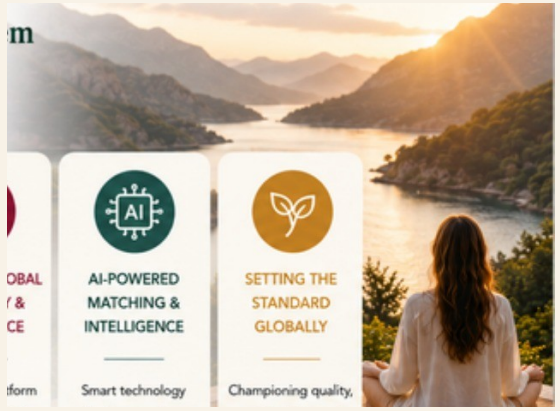

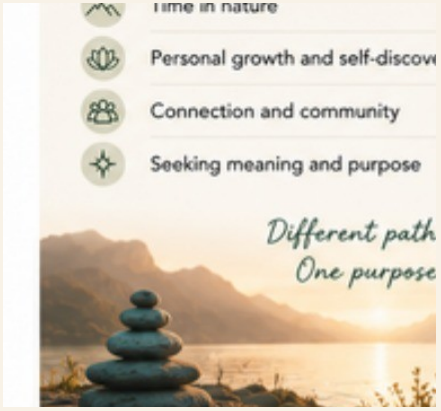

Photography & Mood

The imagery should feel real, spacious, grounded, human, and gently mystical.

Use imagery that says

nature, mountain air, water, forests, sunrise, ceremony, stillness

people in retreat settings - often from behind or at respectful distance

light entering the scene, but never fake or over-saturated

organic textures: stone, wood, linen, earth, sky, leaves, paths

Avoid imagery that feels

overly corporate, glossy wellness stock, plastic, sterile or cold

too religious, dogmatic or tied to one spiritual tradition

too dark, occult, fantasy-heavy, or disconnected from real retreats

crowded, noisy, or visually busy

Graphic Language

Sacred geometry above, nature beneath, clean platform structure in the middle.

Sacred geometry

The geometry should be treated as a premium signal, not a pattern everywhere. Use it as a seal, a very subtle watermark, a hero detail, or a special section divider.

Nature base

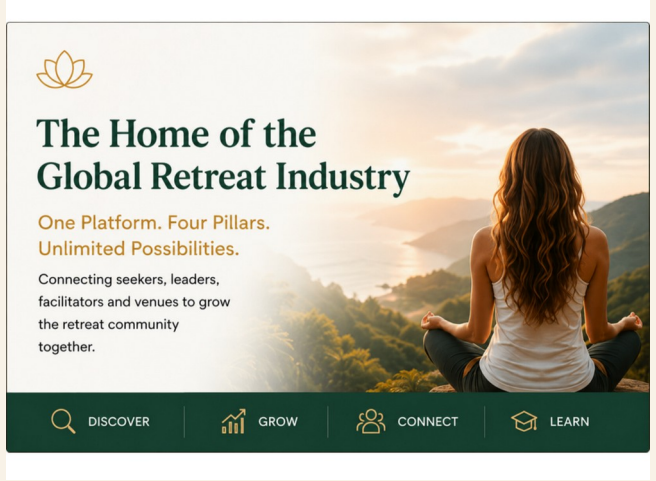

Use soft earth forms, mountain silhouettes, river curves, leaf motifs and warm textures to keep the brand grounded in the actual retreat experience.

The four-pillar colour rhythm

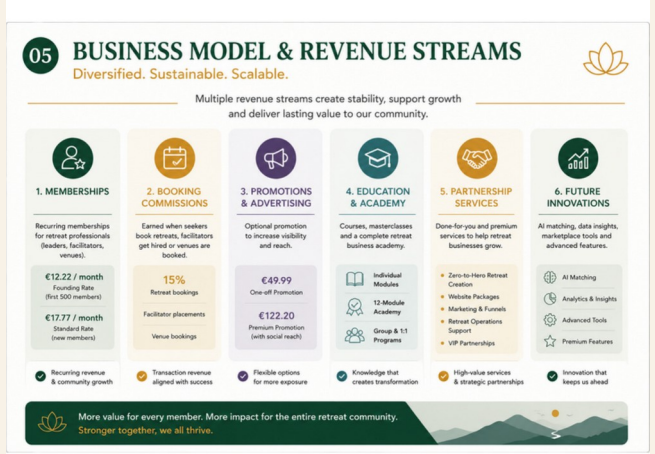

1. **DISCOVER - seekers**
2. **GROW - leaders**
3. **CONNECT - facilitators & venues**
4. **LEARN - community**

Layout System

Spacious, editorial, human, and easy to understand in five seconds.

Keep from the current deck

The cream base, forest green headlines, gold details, and clear four-pillar structure already work beautifully.

Upgrade with the new logo

Use the deep blue and gold lotus for covers, signature pages, ceremonial transitions, and premium moments.

Brand Voice

Warm, wise, simple, human, and welcoming across many spiritual paths.

Voice principles

Professional without becoming cold or transactional.

Spiritual without becoming vague, dogmatic, or exaggerated.

Supportive and human, always making the next step clear.

Trust-building: clear terms, transparent process, respectful language.

Global and inclusive: many paths, one purpose.

Example headline

Find the retreat that is truly right for you.

Example support line

Tell us what you are seeking, where you feel called to go, and what kind of transformation you are ready for. We will help you discover retreat options that fit your path.

Preferred words: connection, trust, retreat, nature, transformation, clarity, support, community, alignment.

Use carefully: healing, awakening, sacred, alchemy, spiritual - powerful words, but only where they feel genuine.

Application Direction

How the identity begins to look in real platform moments.

Website hero

Navy + lotus for the sacred first impression. Cream + green for the practical pathways: seekers, leaders, facilitators, venues.

Social & campaigns

Use nature photographs with a small lotus seal, gold headline, and very clear call-to-action.

Investor / partner decks

Use the current green-and-cream presentation system, elevated with navy cover slides and gold ceremonial transitions.

Final Brand Formula

A simple guide for every designer, page builder, deck maker, and content creator.

The formula

Begin with a calm, spacious layout.

Bring in cream, sage and forest green for nature and trust.

Use navy for sacred depth and premium authority.

Use gold as light: highlights, rules, buttons, seals and moments of transformation.

Keep human photographs real, warm, and connected to nature.

Make every next step clear and kind.

One-line identity

The global home where spiritual retreats, seekers, facilitators, leaders and venues meet in trust, beauty, and transformation.

Grounded in nature. Guided by spirit. Built for trust.

Implementation Checklist

What to update next so the new identity becomes consistent everywhere.

Brand assets

Confirm the final domain spelling: SpiritualRetreats.network.

Create final transparent PNG/SVG logo files from the chosen master logo.

Prepare favicon, social avatar, horizontal logo, dark logo, and light-background version.

Lock the colour palette and font choices before web build.

Platform rollout

Update the existing retreat platform deck with the new name and logo.

Apply the blue/green/gold system to website hero, forms, and emails.

Create templates for retreat profiles, facilitator profiles, social posts, and partner proposals.

Use the brand voice guide for seeker, leader, facilitator, and venue copy.
